Important Details

The GVC Junior Golf Academy is designed for golfers ages 7 to 13, however case by case exceptions can be made for younger players who are ready to take group instruction seriously.

Our primary goal for this program is to ensure that your child enjoys their time playing golf. Clinic instruction will focus on ensuring golfers acquire the basic fundamentals necessary for success. A focus on fun and games will help ensure that your golfer can't wait to get to class.

The opportunity to participate in Operation 36 Matches gives your junior the chance to learn proper course etiquette, pace of play skills, rules of golf and how to keep score. This time on the course also challenges your young golfer to focus on the most important part of golf... learning how to score.

Each month, families will be invited out to compete with their juniors. This helps Mom & Dad understand and appreciate the challenge each golfer is faced with during matches.
