

SAAYMAN'S
EARTHWORKS & SERVICES

We are proud to announce that we will start the PGC gardens maintenance contract from January 2019.

We hope that this is the beginning of a long term relationship and to add value to our golf course, players and most importantly our residents on the estate.

A bit of background on us:

We are a family based business with Johan, Deonné and Inus Saayman running and managing it. We are from Paarl and have a love for our town and its people and hope to make a difference to people and the environment through our work, which we take pride in. We offer a wide variety of services and have many years' experience.

We have been working on Boschenmeer estate since 2009 for HOA and in the past, did service some areas for PGC.

For now we won't be managing flowerbeds on the course itself, the area around the clubhouse and parking or dams belonging to PGC, but our focus will be to add all of the areas belonging to PGC to our schedule, leaving them to concentrate only on the course itself, leaving the rest in our hands.

We pride ourselves with our high standard of quality work and our strict managing skills to get the job done and to ensure we get the best out of our labourers.

We are excited to start this new project when we come back from our annual holiday break in January 2019.

Saayman's Team
